Annex to the Accreditation Certificate D-PL-17186-01-06 according to DIN EN ISO/IEC 17025:2018

Valid from: 12.09.2025

Date of issue: 12.09.2025

This annex is part of the Accreditation Certificate D-PL-17186-01-00.

Holder of the Accreditation Certificate:

PHOENIX TESTLAB GmbH
Königswinkel 10, 32825 Blomberg

with the location

PHOENIX TESTLAB GmbH
Königswinkel 10, 32825 Blomberg

The testing laboratory meets the requirements of DIN EN ISO/IEC 17025:2018 to carry out the conformity assessment activities listed in this annex. The testing laboratory meets additional legal and normative requirements, if applicable, including those in relevant sectoral schemes, provided that these are explicitly confirmed below.

The management system requirements of DIN EN ISO/IEC 17025 are written in the language relevant to the operations of testing laboratories and they conform to the principles of DIN EN ISO 9001.

Electromagnetic Compatibility and Telecommunication (FCC Requirements)

[1] ANSI/TIA-603-D-2010 or ANSI/TIA-102.CAAA-D-2013 may continue to be used until the end of the transition period which is two years from the date of the publication of this KDB.

[2] For Signal Boosters (Part 20) accreditation is required for Commercial Mobile Services (FCC Licensed Radio Service Equipment) and for Signal Boosters (Section 90.219) accreditation is required for General Mobile Radio Services (FCC Licensed Radio Service Equipment).

[3] Table updates for the scope General Mobile Radio Service to add text “above 3 GHz” and for the Microwave and Millimeter Wave Bands Radio Services for Parts 90, 95 and 97 above 3 GHz in version v05r01 are considered clarifications to the scope and therefore the two year transition period ends on March 2, 2020 and is not extended two year from the release date of v05r01.

[4] For 6 GHz U-NII AFC devices, a test laboratory that has been assessed and FCC recognized for FCC scopes UNII with DFS or UNII without DFS may test devices to the guidance in KDB 987594 until their next scheduled assessment without an interim assessment. In order to continue testing to the guidance in KDB 987594 after a testing laboratories next scheduled assessment, the testing laboratory must have been assessed and found capable of testing to the KDB publication.
