19th June 2003

Mr D Pelz
Phoenix Test Lab GmbH
Konigswinkel 10
D-32825 Blomberg
Germany

Dear Mr Pelz

In recognition of the successful completion of the Automotive EMC Laboratory Accreditation Program (AEMCLAP) assessment and successful submission of a 'facilities report', Ford Motor Company has recognised Phoenix Test Lab GmbH for component level EMC testing.

Pursuant to your laboratory's recognition, FMC agrees to accept EMC component test data from the Phoenix Test Lab GmbH test facility located at the address specified above when testing is performed in accordance with a Ford approved EMC Test Plan. Test reports issued by your laboratory shall be accepted to sign-off products to the requirements of FMC engineering specification ES-XW7T-1A278-AB with the following exception:

You are reminded that continued recognition of your EMC laboratory is contingent upon the maintenance of accreditation in accordance with the requirements specified in AEMCLRP.

If you have any questions, you may contact me by phone on 44 (0) 1268 405960 or by e-mail on agunsaya@ford.com.

Congratulations,

Ayhan Günsaya
EMC Technical Specialist
